Vital Sta' tis' tiks

The New Year is upon us and we are into a new cycle of commercials, feature films, music videos and documentary processing at the film laboratories. Cape Town's figures show the characteristic huge increase in commercial processing over the November/December period. Johannesburg however started the year on a quiet note with no features and few commercials being processed. We will watch with interest to see how the situation changes as the year progresses.

We would like to thank the laboratories for the information they have supplied this year. So once again we present our research on the number of Features, TV programmes, Commercials and Corporate Productions made in a particular month.

We make no attempt to identify the title of the production, or the production house or any other information as this is often confidential information - we supply simply the number.

We rely on the co-operation of broadcasters, suppliers of commercial material to broadcasters and local film laboratories for information however at the moment local broadcasters are not forthcoming in providing these vital statistics.

Efforts will continue to be made to build on this statistical data base in order to improve the accuracy, and should readers have comments or other ideas in terms of statistic gathering, please send an e-mail to web@screenafrica.com. Your comments would be appreciated.

STATISTICS FOR DECEMBER 2007 AND JANUARY 2008

THROUGH THE LABS:

Cape Town

Features	Shorts	Commercials	Doccies	16mm	35mm
2	1	123	0	23	103

Johannesburg

Features	Shorts	Commercials	Doccies	16mm	35mm
0	1	7	1	5	4
