

**Cape Town** reports an increase in workflow. International commercials have picked up dramatically, and there is a continuous workflow for longform processing and post production. Recently international car manufacturers have selected Cape Town and surrounds as a backdrop to shoot their commercials. On the feature side shooting is continuing on *The Sinking of the Laconia* as well as *Lost Boys 3* and *Congo*.

**Johannesburg** is still processing *Strike Back* for Out of Africa, and the commercials remain at a reasonable level. Bulks too are also busy. The commercials submitted by Media Host are significantly higher than last month.

We would like to thank the laboratories and Media Host for the information they have supplied to us. We make no attempt to identify the title of the production, or the production house or any other information as this is often confidential information – we supply simply the numbers.
