The **Cape Town** Lab advises that work has picked up after a quiet period. The dailies for the feature *Dark Tide* wrapped recently and over 100,000 feet were processed. A new Italian feature *Natale* has just commenced, as well as some work for *Machine Gun Preacher*.

Commercials are picking up slowly.

Johannesburg also wrapped the dailies on *Winnie*, and has started doing some 16mm processing of the dailies for *Machine Gun Preacher*. The decline in commercials seems to be continuing for the time being.

The commercials submitted by Media Host also reveal a slight decline over the previous period. We would like to thank the laboratories and Media Host for the information they have supplied to us.
