

Cape Town reports that the feature *The Sisters* was processed, and that several student productions also took place. There were 11 international commercials and 13 commercials processed for the local market.

Johannesburg continued processing *Spud*. The number of commercials has dropped off considerably, and shows a marked decrease against a similar period last year when 44 commercials were processed.

The commercials submitted by Media Host have increased again compared with a similar period last year, which tends to indicate a swing to video finish commercials.

We would like to thank the laboratories and Media Host for the information they have supplied to us.

Statistics for May 2010

Through the labs:

Johannesburg

Features	Shorts	Commercials	Doccies	16mm	35mm
