The **Cape Town Lab** suprisingly had no feature work but is expecting camera tests for *Safe House* and *Strike Back* to start shortly.

International commercials and local commercial figures are lower for the same period in 2010. Most of the processing has been on 35mm.

The **Johannesburg Lab** remains without feature work, however commercials have picked up somewhat. Bulk printing continues at a reasonably high level with 39 feature prints for *The Mechanic*, and over 2 290 commercial bulk prints. There were 390 trailer bulk prints.

The commercials submitted by Media Host shows another drop off from the previous month. We would like to thank the laboratories and Media Host for the information they have supplied to us.
