

## Vital Statistics

The **Cape Town** Lab advises that work continues to pick up and that the end of year mad rush is expected to start soon. The dailies for the feature *Machine Gun Preacher* have stopped, but processing of pick-up shots continues. The dailies for the Italian feature *Natale* are still running strong, and Two Oceans Productions are due to start with a 16mm feature in October. Commercials are light at present.

**Johannesburg** also wrapped on features, and reports an extremely quiet period on commercials.

The commercials submitted by Media Host also shows a good increase over the previous period which indicates that more commercials are being originated in digital format.

We would like to thank the laboratories and Media Host for the information they have supplied.
