

Cape Town again reports a drop in overall workflow. Two feature films have been processed – one 35mm and the other 16mm. More international commercials have been through the bath this month, and there is a pick-up in this area. In fact the international footage is almost double that of local productions. Looking ahead there are several feature films in the pipeline, and the commercial footage is picking up.

Johannesburg has benefited from feature work, and commercials are on the increase. On the print front the laboratory reports a busy period mainly with bulks.

The commercials submitted by Media Host are similar to the past month with a slight decrease. We would like to thank the laboratories and Media Host for the information they have supplied to us. We make no attempt to identify the title of the production, or the production house or any other information as this is often confidential information – we supply simply the numbers.

Statistics for August 2009

Through the labs:

Johannesburg

Features	Shorts	Commercials	Doccies	16mm	35mm
2	0	32	11	19	26

Cape Town

Features	Shorts	Commercials	Doccies	16mm	35mm
2	0	17	0	7	12
