

Cape Town again reports a huge drop in overall workflow – possibly the lowest since records were kept. Two Indian feature films have gone through the baths, but with small footages. On the commercials front there is a big drop in international commercials but a steady workflow from the local market. There were also far fewer camera tests done. Looking ahead the bookings are also slow.

Johannesburg had two features through the bath, but was down on commercials, so it would seem to be quiet all round.

The commercials submitted by Media Host show a decrease from last month, mirroring the laboratories.

We would like to thank the laboratories and Media Host for the information they have supplied to us. We make no attempt to identify the title of the production, or the production house or any other information as this is often confidential information – we supply simply the numbers.
